

Business Benefits

WORLD-CLASS
PARTNERSHIP
with four international
conservation organizations

Build credibility and confidence
among key stakeholders and
investors

COMPREHENSIVE
ONLINE DATABASE
of globally recognized
biodiversity information

Easily gather up-to-date, spatial
and descriptive information
on legally protected areas,
threatened species and sensitive
sites through one central source

INTERACTIVE
MAPPING TOOL
with user-friendly interface

Quickly identify potential
biodiversity impacts within a
project boundary and efficiently
explore the regional conservation
context

UNLIMITED
DOWNLOADS
of key biodiversity data sets and
user-defined maps*

Conduct custom analysis
by overlaying biodiversity
information with internal
databases and easily present
findings to key decision-makers

REAL-TIME
REPORTS
of detailed species information
within a particular country or
user-defined area

Automatically generate
reports to help streamline
the project screening process
or to determine the scope of
biodiversity baseline studies

ALIGNMENT WITH
CSR STANDARDS
including consistent definitions
of key biodiversity metrics

Assist in accurately aggregating
and reporting on corporate
biodiversity performance

* Only one download permitted with Limited Use subscription

IBAT for Business Subscription

Ensure your company has access to the most up-to-date conservation data sets by subscribing to IBAT for Business. Three subscription levels are available, based on the annual net revenue of a company or expected use.

TIER 1 Large businesses with annual net revenue greater than \$1 billion. Provides unrestricted access to the tool for 12 months. The fee for this option is US\$25,000, excluding applicable taxes.

TIER 2 Small and medium businesses with annual net revenue less than \$1 billion. Provides unrestricted access to the tool for 12 months. The fee for this option is US\$10,000, excluding applicable taxes.

LIMITED USE Provides access to the tool for 14 consecutive days (from the date of registration), together with permission to download a single country/territory data set. The fee for this option is US\$500, excluding applicable taxes.
